EIEEA Officers and Board of Directors

Kerry Martin - President
Idaho Department of Environmental Quality

Alana Jensen - Vice President
Gonzales-Stoller Surveillance, LLC

Kim Freichs - Secretary
Idaho National Laboratory

Wendy Murphy - Treasurer
Idaho Department of Water Resources

Chloe Doucette - Board Member
Museum of Idaho

Dave Gianotto - Board Member
Idaho National Laboratory

Flint Hall - Board Member
Idaho Department of Environmental Quality

Michel Hall - Board Member
Portage

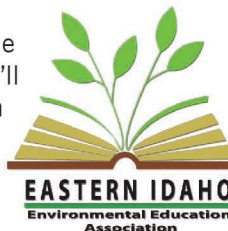

Chris Horsley - Board Member
City of Idaho Falls Parks and Recreation

Sunny Katsenanes - Board Member
Idaho Falls Zoo at Tautphaus Park

Andy Olson - Board Member
Idaho Department of Environmental Quality

Gary Robinson - Board Member
Bechtel

Michelle Walker - Board Member
Idaho Department of Environmental Quality

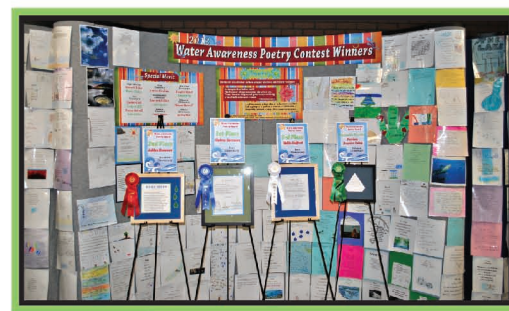

Get involved! Your support is the key to making EIEEA successful. By providing financial contributions, and donating your time, you will be linked to environmental activities in eastern Idaho attended annually by more than 8,000 people. Please look on the back of this brochure where you'll find information on how you can support environmental education in Eastern Idaho.

EIEEA NEEDS YOU!

Ask A Scientist/Meet A Scientist

EIEEA helps to sponsor a weekly feature that brings questions submitted by local students, teachers, and community members together with over 40 local scientists for an engaging answer. The scientists also provide an activity that can be used in the classroom or at home, keyed to Idaho State Science curriculum standards. Monthly, the opportunity to meet these scientists is presented at the Museum of Idaho. Current and past questions, related lesson plans, and more details are presented at www.gsseser.com/education.htm

Idaho Falls' annual Earth Day Celebration is held at Tautphaus Park Hockey Shelter and Zoo on the fourth Saturday in April. This event features educational exhibits and informational displays on earth-friendly products, recycling and alternative transportation, children's arts and crafts projects using recycled materials, entertainment, raffles and classroom projects from area school children.

Idaho Falls Water Festival

In conjunction with the State-wide Idaho's Water Awareness Week's planning team, the Idaho Falls Water Festival is held annually at Tautphaus Park and Gem Lake Dam on the second Thursday in May. The event engages fifth and sixth-grade students and educators in demonstrations, activities, and educational materials designed to teach about water ecology, conservation, and the importance water plays in the health of every living thing.

Discover Eastern Idaho with EIEEA

Eastern Idaho Environmental Education Association (EIEEA) is a nonprofit organization of professionals from government and private industry whose mission is to promote environmental stewardship and resource conservation in Eastern Idaho.

The Eastern Idaho landscape has many unique ecosystems. Bordered on the west by the lava flows and sagebrush of the Snake River Plain, to the east by the rugged Teton Range, and on the north by the spectacular Yellowstone Plateau, eastern Idaho provides a dynamic blend of outdoor recreational opportunities, rich cultural history, and economic vibrancy. The vision of EIEEA is to assist individuals and businesses to discover the personal, economic, and community benefits of environmental stewardship of this rich natural setting.

EIEEA in Action

EIEEA works with local schools, businesses, and government agencies to support education programs and community awareness events and activities that focus on environmental conservation.

Phenomenal Physics

EIEEA supports Phenomenal Physics, a program that enhances student's educational experience in fields of science. Our goal is to build relationships and offer opportunities to students and grants to schools for the purchase of lab supplies and equipment. We prepare articles, lessons, references, and resources to help the students do research areas of science that interest them. All of our content is available online. We support local teachers and assist with judging of science fairs. We sponsor (with support from Idaho State University and University of Idaho) a Phenomenal Physics Science Fair every spring which culminates in top students competing at Physics Day at Lagoon. Phenomenal Physics also provides transportation to send local 9th grade honors students to Engineering Days at Idaho State University.

Donation Form

Your support of the Eastern Idaho Environmental Education Association (EIEEA), a non-profit 501(c)(3) organization, demonstrates your commitment to environmental education and awareness in Eastern Idaho.

- Idaho Falls Earth Day
- Idaho Falls Water Awareness Week
- Ask/Meet a Scientist
- Phenomenal Physics

☐ I want to help. Please contact me with more information on becoming an EIEEA member or volunteering at an event.
